

Flint Table

Designed by Steven Owens

The Flint Table is our quintessential refectory style table, ideally suited to a busy family home. The top is made from 3 crown cut boards of solid oak with a white oiled finish, giving a robust and honest work surface. The trestle style legs are in solid scorched oak with the key detail being the dovetail slips in the underside of the top, housed neatly into the top rebated section of the trestle leg.

Standard size: 2600mm x 960mm x 750mm

Bespoke sizes and timbers are available, please discuss your requirements with us.
