

## Lobb Low Table

Designed by Steven Owens

The Lobb low table collection features sand cast bronze legs with through T detail in a solid timber top. The top is from hand selected matched pairs of figured burr or boards showing extreme character and variation. Each table will be unique and individual, the images are burr elm. The bronze is gently hand polished allowing the natural pitting of the sand casting process to show through, leaving a very raw feeling to this beautiful material.

The leg is machined into the top and has a cast bronze fixing plate to the underside of the piece. Overall size and timber vary from table to table. Please contact us to find out our current stocked sizes and to discuss your requirements.

Size – overall size will vary depending on the timber available. We can source timber to a particular size if required, however this can take several months to find the right piece.

Images are burr elm, Size 1200 x 770 x 320mm high
