

## Mgarr Shelving

Designed by Steven Owens

The Mgarr Shelving System consists of a solid brass and timber upright frame, with wall fixing bracket again in solid brass and timber H frame plinth with knurled solid brass adjustable feet. The shelves are made from bamboo panels giving a striking yet strong shelf which are held in place by solid brass pins. The system allows for multiple configurations and shelf options to accommodate storage, display or AV. Due to the multiple configuration and flexibility of this product please discuss with us your requirements. Please note this system requires a minimum of 2no brackets fixed to the wall for stability.

Single bay shown in image is 1000 x 350 x 2000mm high

Bespoke options available for size, materials and finishes
