

Tatami Tea Table

Designed by Steven Owens

Influenced by the Tatami mats found in traditional Japanese Tea Houses the Tatami Tea Table is a low table with generous proportions designed for the living room.

This solid oak framed table has an ebonised finish with textured smoked oak panels to both the top and lower level. The arrangement of the top panels is significant and provide a beautifully textured surface, with contrasting grain patterns. The table has plenty of storage space for books and magazines.

Size: 1150mm x 1150mm x 450mm

Finish: Ebonised and smoked oak (solid and textured veneer) with natural oiled finish.

Options for different frame and insert panel materials available, please discuss with us your requirements.
