

## Thorpe Table

Designed by Steven Owens

The Thorpe table features sand cast legs in solid bronze and solid timber top using hand selected boards offering stunning character and variation. Each table is unique and offers a real sense of the tree it has come from. Defects and knots in the timber are retained, we add butterfly patches and resin to further enhance the top. Edges can be cut square or left as live edge (image shown is Wych Elm with flame scorched live edge).

The solid bronze legs have slender proportions and subtle details which provide a solid and defined aesthetic. The bronze is gently hand polished allowing the natural pitting of the sand casting process to show through, leaving a very raw feeling to this beautiful material.

The size is only limited by the timber available

Image shows Wych Elm, flame scorched live edge 2.7m x 900mm
